# Hack Club
### Sri Venkateshwara College of Engineering

# BI-WEEKLY REPORT
Week 1 & 2: 08-Jun-2020 to 20-Jun-2020

## Introduction

Being in the initial stage, we - the core and organising committee members of Hack Club SVCE - were very much excited for our initial events. The core team had spent a significant amount of time to form the complete organising committee for all the events bearing all the requirements in mind, after which the events to be held were finalised over a meeting with all organising committee members. The organising committee is broadly divided into 5 teams - core team, communications team, management team, media team and the documentation team.

### List of events:

1. **AMA Mondays:** A get-to-know session between all of the Hack-Club members so that people get familiarized with each other and explore the interests and talents of each other. Members are free to ask each other questions and answer them without any restraints.

2. **Tutorial Sessions**: SInce the outbreak of COVID-19, students are left with a lot of time which they would rather use productively. To help them with the same, the leads of the chapter came up with their own tutorial sessions to share the knowledge they possess among the fellow club members and students so that it comes off as a valuable skill that is very frequently preferred by students to have a stronger resume. Most of the students are intrigued by the vast amount of new websites and apps being created each day, and this leaves them curious on how

they are built and hosted. These sessions are here to help with their curiosity and put their creativity to work. The tutorials are currently being held thrice a week for the following concepts:

a. **App Development using Flutter:** The attendees are taught UI Design, Dart Programming and Flutter Development to create their own designs of apps they might want to create in future.

b. **Web Development:** Building modern and responsive websites no longer seem difficult and attendees are guided to develop their dream sites and get them online.

3. **Wacky Wednesdays:** An open for all session where all the attendees get a chance to make new friends and bond with each other. The members get together and jam, gossip and have fun. A great opportunity to relieve their mid-week stress and just chill out.

4. **Bhatta's Kitchen:** A cooking session by Amrutha Bhatta where all the cooking enthusiasts get a chance to learn cooking and try out a new recipe every Friday.

## Statistics:

### Week 1: Number of attendees
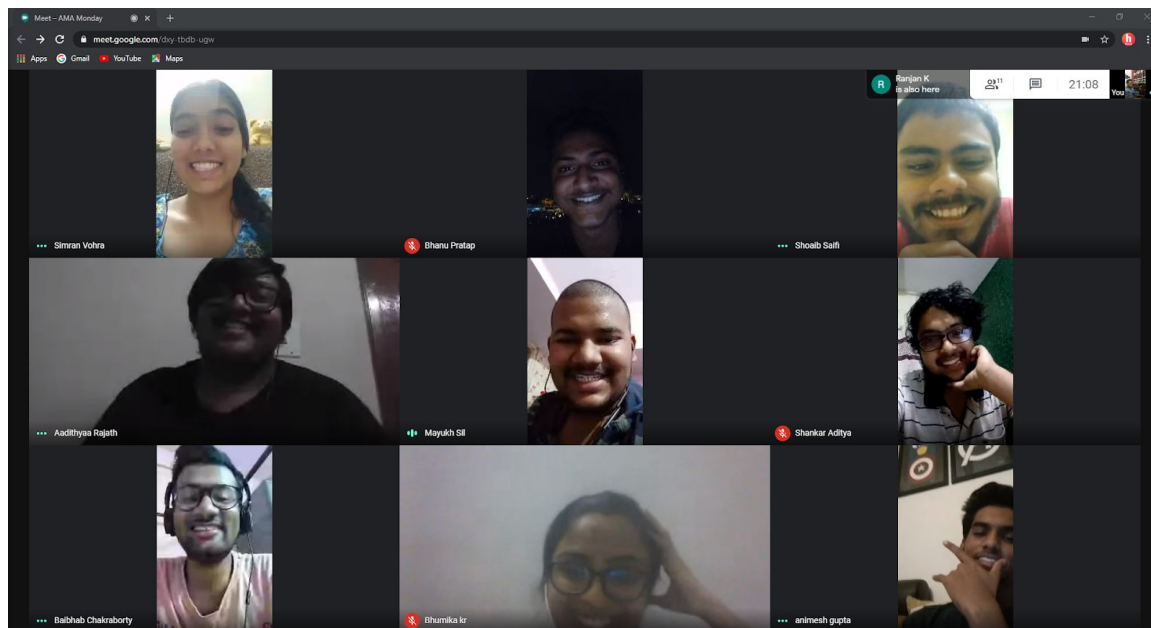

App dev tutorials: 15
Web dev tutorials: 15
Bhatta's Kitchen: 20

### Week 2: Number of attendees

App dev tutorials: 15
Web dev tutorials: 11
Bhatta's Kitchen: 20

AMA Monday - Week 1

Bhatta's Kitchen

## Testimonials:

- *Thanks to Hack Club SVCE.*
  *The training on Web Development Tutorials is great.*
  *The sessions were very interactive and explained in detail and made easy to understand.*
  *Thanks to you Abhay for making it a huge success.*

- *The AMA (Ask Me Anything) and WW (Wacky Wednesdays) sessions were indeed helpful and I truly enjoyed getting to know people and their interests.*

- *Bhatta's Kitchen was amazing.*

- *Special thanks to Abhay, Bhanu and Mayukh.*
  *Your commitment and dedication in planning and conducting the events was on point.*
  *It has been a pleasure working with you guys.*
  *Cheers.*
